

# CODA Architects

[www.coda-architects.co.uk](http://www.coda-architects.co.uk)

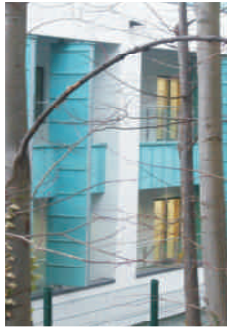

CODA Architects has considerable experience in all aspects of healthcare design ranging in value from £100k to £100m : for details of specialist departments that we have designed see attached listing

Clifton Heights  
Triangle West  
Clifton  
Bristol  
BS8 1EJ  
Tel : 0117 929 9285

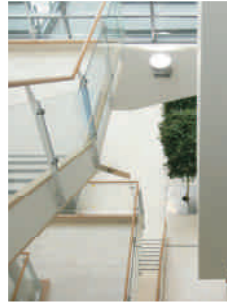

## ARCHITECTURE

We have experience of New build and Refurbishment projects and are particularly concerned with creating a robust Architecture that is easy to maintain and is a delight to its users

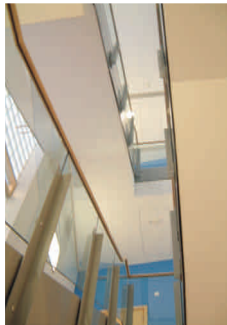

## INTERIOR DESIGN

Good hospitals have a feeling of harmony: The appropriateness of materials colours and lighting all contribute to a sense of calm. Our interiors use curves, colours and natural materials to bring clarity to a design

## OPTION APPRAISALS

Option appraisals demand an awareness of recent trends in Healthcare design and an understanding of Critical adjacencies. CODA Architects strive to create order from the complexity of many existing hospital estates and have successfully completed many option appraisals for NHS Trusts

## BUSINESS CASES

We have successfully undertaken many Business case design studies either at SOC or OBC stage through to FBC and understand the need for precise evaluation of options

## MASTERPLANS

Masterplanning demands an acute awareness of critical adjacencies within an existing hospital estate and we use our considerable experience when inserting a single department or Specialist unit
